

Yangben Zhengjian

Data Engineer · yangben.zhengjian@mailbox.example · +1 (206) 555-4371 · 815 Pine St, Apt 1102, Seattle, WA 98101

PROFESSIONAL SUMMARY

Data Engineer with deep expertise in computer engineering. Proven record of delivering production systems, leading technical initiatives, and mentoring engineers. Seeking to continue contributing in a specialty-occupation role at Cascade Robotics, LLC.

EXPERIENCE

offer pending **Data Engineer** — Cascade Robotics, LLC

- Own end-to-end computer engineering initiatives across design, implementation, and review.
- Partner across functions to ship reliable, scalable production systems.

2019 - 2024 **Engineer** — Meridian Software Corp

- Built and maintained core computer engineering components serving production workloads.
- Improved the performance and reliability of mission-critical data pipelines.
- Translated stakeholder requirements into delivered, tested features.

2016 - 2019 **Associate Engineer** — Foundry Systems

- Supported development and testing across the engineering organization.
- Contributed to internal tooling, code review, and documentation.

EDUCATION

Master of Science in Computer Engineering — Carnegie Mellon University

Relevant coursework: algorithms, systems design, statistics, and computer engineering fundamentals.

SKILLS

Computer Engineering; systems design; data modeling; testing & verification; cross-functional collaboration; technical writing; mentorship; production operations; performance tuning; stakeholder communication.
